Tenderheart Bear™, Cheer Bear™, Wish Bear™ & Birthday Bear™ Stocking and Ornaments

This chart may be embroidered as a stocking or as four separate ornaments.

Stocking photo model (see page 21) is stitched on Zweigart® 3706/540 Royal Blue, Fina Aida, 14 count. Finished design size is 5⅞″ × 11⅞″, cut fabric 16½″ × 22″ minimum.

DMC Floss Requirements: White—2 skeins, all other colors—1 skein.

The four ornament models (see page 9) are stitched on Zweigart® 3793/1 Ainring Aida, 18 count. For each ornament: cut fabric 7″ × 7″ minimum.

"Tenderheart" ornament finished design size is 2⅛″ × 2¾″.
DMC Floss Requirements: White, 680, 729, 956, 742, 445, 954, 519, 210, 321, 898, 907, 905, 977, 725, 976—1 skein each.

"Cheer Bear" ornament finished design size is 2⅛″ × 2⅝″.
DMC Floss Requirements: White, 907, 905, 898, 321, 956, 742, 445, 954, 519, 210, 3689, 352, 353—1 skein each.

"Wish Bear" ornament finished design size is 2¼″ × 2⅝″.
DMC Floss Requirements: White, 958, 959, 964, 321, 898, 742, 743, 445, 907, 3689—1 skein each.

"Birthday Bear" ornament finished design size is 2⅛″ × 2⅜″.
DMC Floss Requirements: White, 519, 898, 680, 783, 445, 3689, 905, 741, 743, 956, 321—1 skein each.

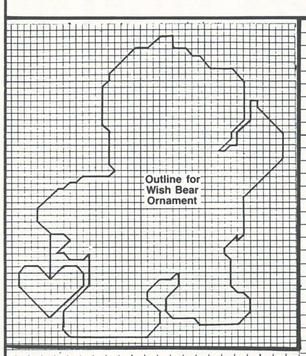
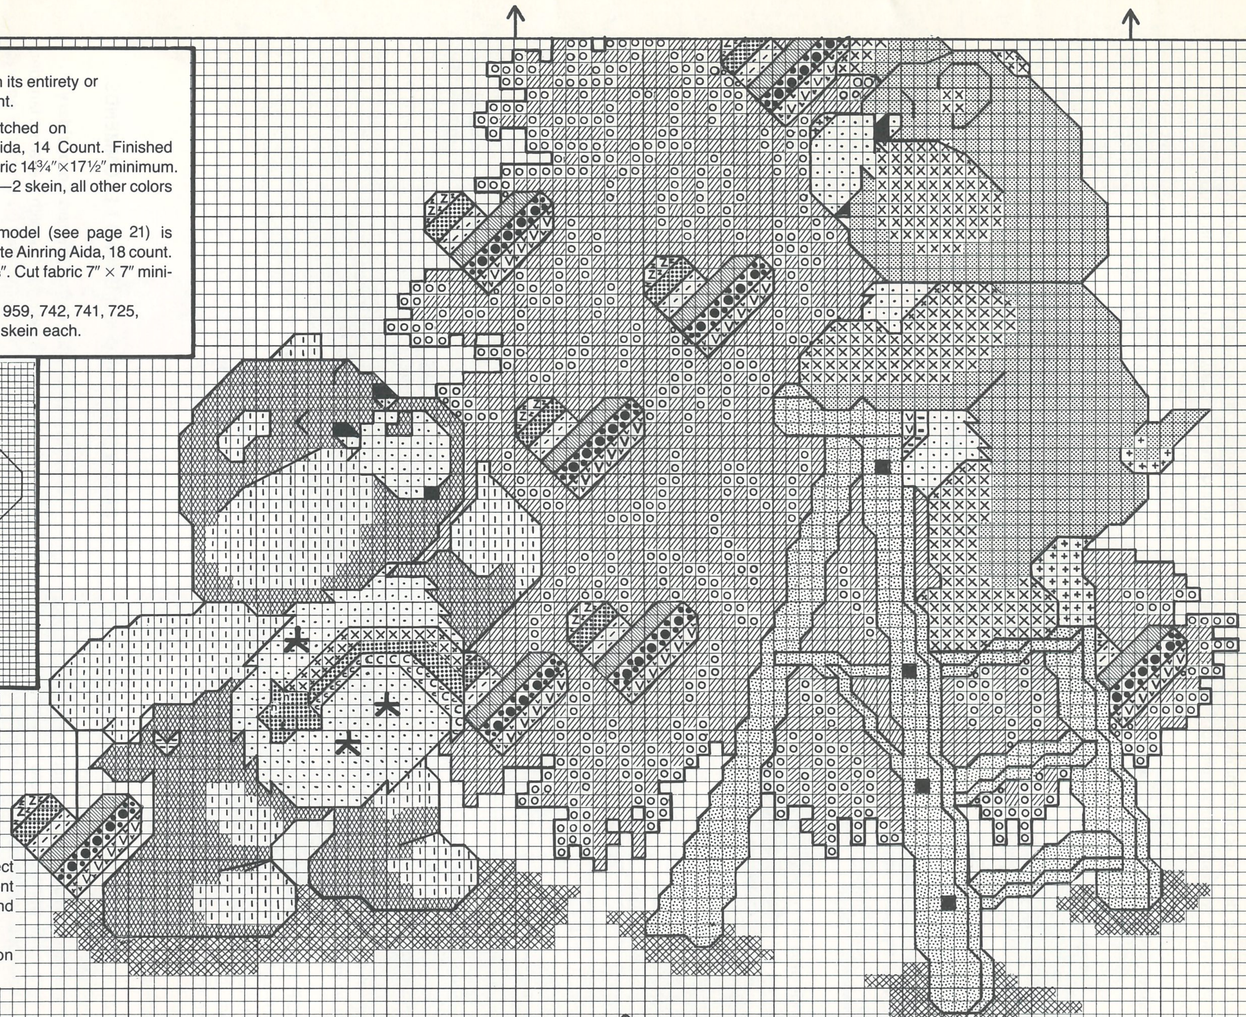
This chart may be embroidered in its entirety or in part as a "Wish Bear" ornament.

Photo model (front cover) is stitched on Zweigart® 3706/1 White Fine Aida, 14 Count. Finished design size is 6¾″ × 9½″. Cut fabric 14¾″×17½″ minimum. **DMC Floss Requirements:** 699—2 skein, all other colors in key—1 skein.

"Wish Bear" ornament photo model (see page 21) is stitched on Zweigart® 3793/1 White Ainring Aida, 18 count. Finished design size is 2¼″ × 2⅝″. Cut fabric 7″ × 7″ minimum. **DMC Floss Requirements:** 958, 959, 742, 741, 725, 898, 956, 445, 954, 519, 210—1 skein each.





PLEASE NOTE:
The coloration of Wish Bear is correct as shown in photograph on the front cover and as indicated in key and chart.

The photographs of Wish Bear on page 21 show incorrect colors.

© 1986 Those Characters From Cleveland, Inc.

5. **FABRIC CONVERSION, NEEDLE SIZE, NUMBER OF STRANDS OF FLOSS:**
The finished size of any charted design is determined by the count of the fabric on which it is worked. The simple formula below should be used to determine size.

All finished design sizes indicated on chart pages are approximate.

FORMULA

Divide: [stitch count of chart Width] By: [thread count of Fabric] = Width in inches

Divide: [stitch count of chart Height] By: [thread count of Fabric] = Length in inches

The following chart indicates the number of strands of floss and needle size required for cross stitch, according to the thread count of the evenweave fabric you use. Use a blunt pointed tapestry needle.

CHART A

FABRIC COUNT (PER INCH)	STRANDS OF FLOSS	TAPESTRY NEEDLE SIZE
11	3	24
14	2	24
18	2	24 or 25
22	1	26

6. **HOOP OR FRAME:** Select stretcher bars or frame large enough to hold entire design. Stretch fabric with clean hands. We do not recommend using a hoop for larger designs, but if you choose to do so, avoid snagging floss in worked area. Place screw or clamp of hoop in 10 o'clock position (or 2 o'clock, if left handed) to keep from catching.

7. **FIND THE CENTER OF YOUR FABRIC:** by folding it in half, top to bottom and then again left to right. Put a pin in center point of folds and then baste this point so you don't lose it. You can baste a line, from this center point out, in 4 directions (forming a large +) so that you've established the center (in both the horizontal and vertical) of your fabric. The center points of each chart are marked with an arrow.

8. **USING CHARTS:** EACH SQUARE ON GRAPH REPRESENTS ONE SQUARE ON FABRIC. Each symbol or tone represents the color of floss to use. To help distinguish colors in design, shade graph with color pencils. Complete all cross stitches before working back stitches, french knots or applying ribbon and beads. Backstitching is used to define areas with a continuous outline. See KEY for each chart.

9. **FLOSS:** Use 6 strand, 100% cotton embroidery floss. Cut your floss into 18″ lengths. For best coverage, pull floss across a damp sponge and separate all six strands. Use the number of strands recommended for use as indicated in KEYS.

10. **STITCHING METHOD:** Make your stitches by inserting the needle down and then up, etc. In other words, push and pull method . . . there is less stress on the fabric and the stitches will not get pulled too tight. It's easier this way and the tension is consistent, thus making the stitches even. Don't use the darning method even though it seems to go faster. Your embroidery will not look as well and your fabric will suffer. Floss will best cover when lying flat. If your floss becomes twisted, just drop your needle and let it hang. It will unwind itself. Be careful—watch the needle!

11. **SECURING FLOSS:** Hold 1″ of floss behind fabric and secure with the first few stitches. Never knot your floss. To secure ends of floss, run under several stitches on back of design and clip. DO NOT CARRY FLOSS MORE THAN ½″ BETWEEN STITCHED AREAS. Loose and carried floss, especially dark ones, will show through fabric. When carrying floss less than ½″, run under worked stitches on back, when possible.

12. **WASHING INSTRUCTIONS** given in this book apply to embroideries that have used only DMC or BATES ANCHOR brand cotton embroidery floss. Embroideries using other brand embroidery thread should be laundered according to those companies' recommendations.

DMC RECOMMENDS:

Washing Instructions for Colored Embroidery

Never wash embroidery together with starched or stiffened fabrics. If the embroidered articles are starched or stiffened, soak them first in water of about 175°F (80°C) to remove the starch or stiffening, then rinse several times.

Normal Washing

1) Wash in luke warm soap or detergent suds. Use detergent recommended for colors, but in very small quantity, according to the instructions. Avoid chemicals recommended for bleaching. Do not worry if the water becomes colored. Keep on washing and rinsing in plenty of water.
2) Rinse several times in luke warm water, then in cold water. When washing with soap in hard water, revive the colors in water containing 6 or 7 teaspons of white vinegar per quart of water, then rinse in plain cold water.
3) Never leave damp embroidery folded or in a heap.
4) Roll the embroidery in a towel and squeeze without wringing, then spread out in the open.
5) Iron the embroidery on the wrong side between two clean towels with a warm, not hot, iron.

SUSAN BATES ANCHOR BRAND RECOMMENDS:

Washing Instructions for Colored Embroidery

Treat hand embroidery in accordance with the fabric laundering recommendations for the material on which the embroidery has been carried out.

NORMAL LAUNDERING:

1) Machine or hand wash in cold or lukewarm water, using a mild detergent recommended for colors. Do not bleach.
2) Rinse in lukewarm and then cold water.
3) Embroidery may be tumble dried or roll the embroidered article in a towel and gently squeeze without wringing, then spread to dry. Avoid leaving damp embroidery rolled up.
4) Place the embroidered article between two towels, then iron on the wrong side with a warm iron.

How to Make a Stocking

FRONT
Embroider design before cutting stocking pattern. See Diagram for pattern, one square equals one inch. Make paper pattern which includes 1 inch seam allowance. Place top of paper pattern 1¼″ above top of embroidered design of stocking. Pin pattern in place and sew a running stitch, on the fabric, along outer edge of pattern. Remove paper pattern, check position of running stitch, make sure there is a 1″ seam allowance all around embroidered design. With contrasting thread sew another running stitch 1″ inside first running stitch, all around the embroidered design. This is your sewing line.

BACK
Cut 1 piece of fabric of your choice to coordinate with Stocking Front, using paper pattern. Cut a 5″ length of ornamental braid or ribbon or piping (made of coordinating fabric), fold in half and baste to stocking back. This is the hanging loop. See diagram.

OPTIONAL: add piping; baste piping onto back of stocking

With right sides together, sew stocking back to front, leaving top open. Clip seams and turn to right side. Press 1″ seam allowance on top of stocking, to the inside.

LINING
Cut 2 pieces of coordinating fabric, using paper pattern. With right sides together, sew lining pieces, leaving top seam of stocking lining open. Clip seams. Press 1″ seam allowance on top of stocking lining to the inside. Trim seams if desired.

Insert lining inside stocking. Pin top of stocking and lining together and slipstitch.

OPTIONAL: Finish stocking edge with ornamental braid, ribbon or twisted floss cording if you choose not to use piping.
